Mr. Ozcakmak will act as an independent director: Bahay is an executive director of Lions Bay Capital Inc. (TSX-V: LBI, “**Lions Bay**”). Lions Bay has been approved as a Control Person of the Company by Resolution passed by a vote of over 99% of voting shareholders at the Company’s annual and special general meeting held on June 7th, 2018. In 2017 he played a pivotal role in the turnaround success of Jervois Mining Limited and currently oversees investee companies within the Lions Bay portfolio.

Mr. Balic is a mining finance professional and has worked with Canadian and US publicly listed resource companies for the past 13 years. He is the current CFO of Goldgroup Mining Inc. where he was part of the finance team which brought their Mexican mine into commercial production.

“We are thrilled to have Bahay and Anthony join our board – both have worked hard to affect our restructuring and we look forward to pursuing and executing on value accretive activities together, commencing with the restart of the Company’s wholly owned Cerro Dorado gold processing plant in Peru. These appointments provide the Company with access to additional deal flow and investor networks which we expect will benefit the Company moving forward,” said Ian Graham, CEO.

The Company is further pleased to announce that it has contracted with Dig Media Inc. dba Investing News Network (INN). INN will introduce the Company to INN's audience of educated, active investors. The Company and Lions Bay are proceeding to settle \$1.03 million of Company indebtedness (the **"Shares for Debt Transaction"**) through issuance to Lions Bay of 20,649,774 Company common shares at a deemed price of \$0.05 per share. On completion of the Shares for Debt Transaction, the Company will have 48,755,222 Common Shares issued and outstanding.

The Company is working to close a previously announced financing that is expected to close immediately prior to closing of the Shares for Debt Transaction, and on completion of the Shares for Debt Transaction and the financing the Company will have approximately 60,755,222 Common Shares issued and outstanding. The financing consists of 12,000,000 units at a price of \$0.05 per unit for total gross proceeds of up to \$600,000. Each unit consists of one common share and a whole warrant, with each whole warrant exercisable into one additional common share at \$0.06 per share for one (1) year after the closing date.

Montan Mining's objective is to reduce corporate debt and recapitalise the company, as an important step in enabling the company to pursue and execute on value accretive activities, commencing with the restart of the Company's wholly owned Cerro Dorado gold processing plant.
